

National Survey of Job Positions with Establishments

Area of Continuous Statistics

National Statistics and Census Institute

The National Statistics and Census Institute (INEC) is a public institution, whose objective is producing formal statistical information at the national level, by means of statistics and surveys, to understand the country's economic situation.

INEC is the principal technical body of national statistics and coordinator of the National Statistical System - SEN (article 12, of Act 7839).

Confidentiality Act 7 839

Under article 4 of Act 7839 of SEN, all the information provided by you is strictly confidential and shall be used for strictly statistical purposes; namely, the institution CAN'T disclose individual data of each one of the companies. Information is handled globally; information won't be supplied with taxation purposes or in any other way foreign to statistics.
